

# Lough Corrib Angling Federation.

Lough Corrib Angling Federation is made up from Thirteen Trout angling clubs based on the shores of Lough Corrib.. We would like to submit the following points to the National Planning Framwork 2040.

- Recognise the importance of game angling (Salmon,Sea trout, Brown Trout)to the economy,Local communities ,Tourist and Hospitality industries along with local jobs.
- The National Planning Framwork should support the development of low density cluster development towns and villages so as to protect water courses and their habitats from pollutants in the Corrib Catchment area.
- Identify our salmonid rivers and lakes as national protected areas, invest in the protection of and enhancement of their bio-diversity and also invest in their use for sustainable economical ,tourism and educational benefits.
- Identify Lough Corrib and it's catchment area as internationally and nationally important locations with investments from local authorities, tourist boards, government agencies to enhance successful delivery of the national planning framwork plans up to 2040 and the long term future of planning in the corrib catchment area..
