Galway goes Green.

The building of Greenways on disused railways throughout the county would be of Social, Mental Health and Economic benefit for the county.

As a visual impaired person who rides a tandem bicycle with a "pilot" , a safe and traffic free place to ride is essential. Quite roads are becoming less and less and smaller roads are too narrow and dangerous to use a tandem.

Therefore for my own selfish reasons and for the safety of my wife and 3 children to ride as a family in safety, please make it a priority that more and more Greenways are built and linked together throughout the country for safety and enjoyment of all families and citizens of this green island...

Please consider this proposals for your future plans in the National Planning Framework.

Yours,  
Sincerely,

Leo Hynes (and family),
