I would consider an indication of the " Decision Makers " attitude to Drogheda was clear when they decided to impose a By - Pass Toll on its residents to travel from one side of their town to the other , the alternative being to add to the log jam of traffic in the town , and i would suggest that this lack of consideration has continued throughout various government plans for example the recent Spatial Strategy Fund and " Our Plan " where Drogheda is not even mentioned , it's time this Toll was removed and Drogheda gets the recognition and financial support it deserves . I am not attached to any political or community group . Rory Mohan .
