Observations:

5. Planning for Diverse Rural Places

Chapter: 5. Planning for Diverse Rural Places

Dear NPF,

As the owner of a Connemara based self-catering (Airbnb) agency I will to note the often unrecorded and under estimated value that short term letting has on economies in rural areas just like Connemara, Co. Galway.

Please find attached a short presentation I made to some Oireachtas Members on Short Term Letting and Connemara in February 2023.

In the interest of balanced regional development be careful of over regulation of the short term self-catering through the planning permission system.

Yours Sincerely,

Terence O'Toole
Love Connemara Cottages
